Sierra Telephone Systems
8570 Barron Way, #A
Reno, NV 89511

Dear Angie and Tim,

After using our new telephone system for a few months I wanted to write a letter to show my appreciation. We looked at many different systems when designing our new store and we are very pleased that we decided on you.

From the very outset of our discussions you were more than helpful in explaining how and why a telephone system should work in our application. It was very important for us to integrate the old store and new store as seamlessly as possible. With our new system everything works as though it is all under one roof.

During and after the installation you were even more helpful than expected. Your crew helped us open without a hitch or missed beat. I love the fact that I can just pick up the phone and you are always right there to help.

Again, thank you for your professional and helpful advice and service. I will always send customers your way!!!

Sincerely,

Clint Jolly

P.S.- Thanks for the referral to Sierra Business Networks- they have gone above and beyond as well!!!!!!

Dear Tim,

I am writing this letter to thank you and commend you and your staff on your professionalism in installing our new phone system. We appreciate your knowledge in helping us decide what we needed in our busy office. You and Angie were very patient with my office staff and me during the install and "education process". We have always loved Chung, who is so helpful and knowledgeable, that it seems the phone system had always been there. It was that easy! I also appreciate all the follow-up that Angie has done to make sure that everything was running smoothly. Our office staff is very happy with our new automated phone system. Thank you for all your help and we look forward to working with you in the future.

Sincerely,

Christie Smith

To Whom It May Concern:

Sierra Telephone Systems has been our full service contractor for more than five years, servicing thirteen locations in Northern Nevada including our stores in Carson City, Elko, Winnemucca, Fallon, Garderville, South Lake Tahoe and Incline Village.

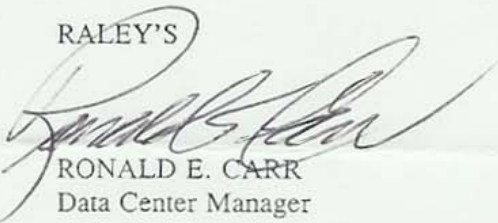

We have been very satisfied with the individual attention that Sierra Telephone Systems provides. We have found their personnel to be professional, courteous, knowledgeable and flexible. Since Sierra Telephone Systems is a full service contractor, they have been able to provide Raley's with complete communication services such as all wiring for voice and data, as well as installation of the phone and paging systems and LAN hubs. We receive many compliments from contractors involved in new store projects indicating that they also found personnel from Sierra Telephone Systems to be courteous, professional and easy to work with.

Emergency response times provided by Sierra Telephone Systems have been outstanding. We have always been able to count on Sierra Telephone Systems to respond quickly and work diligently to restore service for either voice or data communication problems.

It has been a pleasure working with Sierra Telephone Systems and we look forward to our continued business association. We most certainly recommend Sierra Telephone Systems to any company looking for a full service communications contractor.

Sincerely,

RALEY'S

Reno NV 89511

Thank you for your letter of April 7th. I appreciate the opportunity to provide feedback.

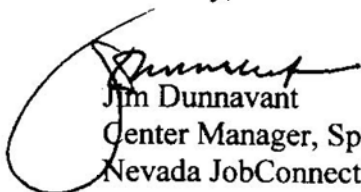

First of all, I would like to commend Doug Culp. Without Doug, we would all have been in trouble. He has a way of explaining things to non-technical folks that takes the difficulty out of a process that can be foreboding and confusing. In fact, to his credit (I think) he has converted me to a "phone guy" who can talk about DID's, trunks, and the like.

Let me also commend your engineer, Chung. His knowledge of the system and his ability to do the programming made the experience much easier.

We got off to a bit of a slow start with regard to training and initial installation, but your staff soon met the challenge and kept us in the game when we weren't sure we still wanted to play. There were so many other things going on at the same time that it is a wonder we all lived through it.

Finally, congratulations on a job well done. We continue to get nothing but positive "can do" attitudes from your staff and we appreciate it.

Sincerely,

Jim Dunnivant

Dear Tim,

I am writing this letter to thank you for a very successful installation of the phone systems in our Reno and Minden offices. Not only was the equipment recommendation very well suited to our needs, the customer service and follow up support were outstanding. I also found you and your staff incredibly helpful in terms of educating our employees on the phone equipment. I appreciate that you scheduled installation on our terms and strived to make sure we were satisfied.

Please know that I am happy to give any future customers a recommendation to use your company for their phone needs. You may provide my name and phone number to your potential customers. I look forward to the opportunity to share my positive experience with them.

Best wishes for continued success in the new year!

Best Regards,

Lyn Millard

Dear Mr. Berry:

I am writing this letter to compliment you and your company on the great product and wonderful service you have provided Prudential Nevada Realty over the past years. As you know, the real estate business cannot function without a reliable telephone system and your company, along with the Toshiba product, provide that valuable tool. Your technicians are knowledgeable, reliable and service calls are handled in a timely manner.

I would highly recommend your company to anyone considering a telephone system. Keep up the great work!

Sincerely,

Tim Berry-Vice President

Dear Tim,

I just wanted to let your company know what a great experience we've had in our dealings with you. From the first phone call, to the install & training, we've been incredibly pleased with your knowledge & service.

When I called, I didn't even have an idea of what questions to ask about an automated phone system. You came out to our office, saw our needs & wants & suggested a system that would fit our needs, instead of one that was "overboard". The ease, quick installation, & professionalism of the installer really impressed me. When training, you provided step by step directions & also provided those directions in very easy to use manuals. You answered every question (sometimes several times) & made sure that we understood how everything worked. The entire experience went very quick & definitely painless.

I would highly recommend your company & services to anyone who needs a phone system. An experience that could have been stressful & a nightmare, was sweet & easy. Thank you for everything.

Dear Tim,

I wanted to take this opportunity to thank you and your staff, for the fantastic job done at Mariposa Dual Language Academy. The phone system and its features provided are exactly what we needed for our present and future growth needs.

Your professionalism and most importantly, your patience with the building challenges helped us to open the school on time. While I am at it, I also wanted to let you know that the system you installed here at Nevada Hispanic Services in 1998 continues to work well for us and indeed has met all of our expectations.

Please know that both Mariposa Dual Language Academy and Nevada Hispanic Services will continue to use your services and will gladly refer potential clients.

Kindest regards

Jesse Gutierrez

Attn: Mr. Tim Berry

Dear Mr. Berry:

As you know, Custom Glass has been a loyal customer of Sierra Telephone Systems for the past sixteen years. I would like to take this opportunity to compliment you and your staff for the excellent service you provided.

Over the years Custom Glass has grown and with it our telephone needs. Your company has provided us with three different telephone systems as our demands increased. The support service we receive from your staff is both courteous and prompt. Your technicians are very knowledgeable and respond to service requests promptly. In some instances simple problems are handled efficiently over the phone with quick and concise instructions.

I have in the past, and will continue to in the future, highly recommend your company to friends and business associates requiring a new telephone system for their business.

Sincerely,

A handwritten signature in blue ink that reads "Kevin De Paoli".

Reno, NV 89511

Dear Tim,

I want to thank you and your crew for 2 things: 1) for delivering such a great product, and 2) for your professionalism through the whole process, from buying the system, to installing it.

I searched for over a year for a system that would do what your Toshiba VoIP System does. It does exactly what I need it to do; It allows me to be seamlessly tied into my office switchboard, right from home. I don't have to drive to the office every day, yet I can still participate in office switchboard activity right from home, as if I was right there at the office.

I was concerned that I would have to compromise sound quality and other features by going with a VoIP system instead of a traditional copper-wired system. My new Toshiba VoIP phone system actually is more user-friendly than our old switchboard system, and the sound quality is actually superior!

Thank you for your help. Now I know why a friend referred me to you!

Sincerely,

A handwritten signature in cursive script that reads "Karen Phelan".
